SMALL CLEANING BUSINESSES

Are you a small cleaning business with big goals?

**Are you frustrated by the speed of your
company's growth?**

**Would you like someone to inject some energy
into your trade?**

Optomen Television, creators of award winning television, including BBC2's *Mary, Queen of Shops* are aiming to address these questions by producing a major new series for Channel 5. We will tackle the issues that small businesses face on a daily basis in today's recession soaked world with advice from one of Britain's most successful entrepreneurs. We will help investigate everything from controlling cash flow to increasing your profit margin and with an innovative plan of action to further your business we'll help you get on the road to success.

Britain is alive with creativity – we have more passionate entrepreneurs than any other country in Europe – but when it comes to the practical business skills we fall down. And with 30,000 independent businesses estimated to go bust this year we all acknowledge that it couldn't be a tougher time to run a small business in Britain.

So let's help you along with this once in a life time opportunity and get your small business to lead us **all** out of this recession.

If you're interested in being involved please email smallbusiness@optomen.com or call Naomi from the small business team on
